ASME B31 3 Process Piping Guide engstandards lanl gov

The ASME B31.3 Code defines unlisted components as components not in Tables 326.1, A326.1, or K326.1. Unlisted components can have pressure ratings but the owner and/or the designer has the responsibility to verify that the design, materials, fabrication, examination, and testing of the component meet the requirements of ASME B31.3.

ASME B31 3 Allowances for Pressure and Temperature Variations

The total number of pressure-temperature variations above the design conditions must be less than

1000 over the life of the system (note that this is the number anticipated in the design of the system, not some count taken during operation of the system; the ASME B31.3 Code is for design of new piping systems).
