American Urological Association - Guidelines

The AUA's Clinical Practice Guidelines provide evidence-based guidance with an explicit clinical scope and purpose. AUA also provides Policy Statements, Best Practice Statements, Position Statements and White Papers to provide urology professionals with the best in peer-reviewed treatment recommendations and research. [Guidelines](#) | CUA Canadian Urological Association CUA guideline documents provide a synopsis of the most current information on a particular topic and are intended for use by Canadian Urologists to aid them in their clinical practices. These guidelines however, do not establish a fixed set of rules or define the legal standard of care. The guidelines do not supercede physician judgment, and patient care should always be individualized. Treating physicians must take into account variations in resources, patient needs, and preferences.
