[Is Placarding Required for Class 9 Hazardous Materials ...](#)

In the classification system of the U.S. Department of Transportation's (DOT) hazardous materials, Class 9 hazmats are those that don't come under any of the other hazmat classes (e.g., explosives, flammables). But, they are still hazardous materials and there is a placard for them. But, does the placard have to be used?

Hazmat Placards, DOT Placards, Hazard Placards

The Department of Transportation (DOT) mandates that Hazmat Placards be used when transporting hazardous materials and dangerous goods in the United States. These DOT Placards and Hazardous Materials Placards have numbers on them noting specific chemicals or groups of chemicals being transported. Clearly marking trucks as carrying hazardous materials with hazmat placards ensures the proper and

HOW TO USE The Hazardous Materials Regulations

The USDOT issues most of the Transportation regulations in Title 49 Transportation, Code of Federal Regulations (49 CFR). The Hazardous Materials Regulations (HMR) are in the volume containing Parts 100-185 and govern the transportation of hazardous materials in all modes of transportation air, highway, rail and water. The Code of Federal Regulations (CFR) has the force of the **49 CFR 172.504 - General placarding requirements. | CFR ...**

(5) For transportation by transport vehicle or rail car only, an OXIDIZER placard is not required for Division 5.1 materials on a transport vehicle, rail car or freight container which also contains Division 1.5 explosives and is placarded with EXPLOSIVES 1.5 placards, as required.
