[Traumatic Brain Injury Resource Guide - Ischemia](#)
Answer: Ischemic (or ischemia) refers to a disruption in blood flow. It can be head trauma related. This would mean that the trauma that caused your head injury also caused disruptions in blood flow. As we age, the integrity of our blood vessels declines and we may have heard the term "vascular disease" or "ischemic disease"—this refers to the disruption of blood vessels/blood flow due to [Cerebral Ischemia - Columbia Neurosurgery](#). Cerebral or brain ischemia is a condition that occurs when there isn't enough blood flow to the brain. Doctors at Columbia Neurosurgery in New York will discover the symptoms and causes. In order to successfully treat cerebral ischemia.
