## LED Lighting | The Home Depot Canada

Indoor and outdoor LED lighting offers a number of benefits compared to halogen and incandescent lighting, including: Energy Efficiency. LED lights consume less energy to produce the same amount of light as other types of bulbs. Switching to LED lights means doing something good for the planet and can reduce the cost of your energy bills. Longevity. LED lights can burn for thousands of hours.

## Understanding LED Drivers by LEDSupply

Forward Voltage is the amount of volts the light emitting diode requires to conduct electricity and light up. As

temperature increases, the forward voltage of the LED decreases, causing the LED to draw more current. The LED will continue to get hotter and draw more current until the LED burns itself out, this is also known as
