Tree peony (*Paeonia suffruticosa* Andrews) is one of the earliest and most well-known horticultural and medicinal plants in the world. Since flower buds of tree peony must go through a period of

MicroRNAs: The Potential Biomarkers In Plant Stress Response

MicroRNAs; Biomarker; Plant Stress Response 1.

Introduction Plants encounter various biotic and abiotic stresses which greatly affect their growth, development, and yield. Since plants are sessile in nature so, they have evolved sophisticated mechanisms and efficient strategies to withstand the environmental stresses which are caused by various biotic or abiotic factors. The different me

Growth Responses of Desert Saltgrass under Salt Stress

Plants were grown under control (no salt) and three levels of salt stress (100, 200, and 400mM NaCl equivalent to 6250, 12500, and 25,000 g L⁻¹ sodium chloride, respectively), using Hoagland
