Monitoring the Nervous System for Anesthesiologists and ...

In summary, Monitoring the Nervous System for Anesthesiologists and Other Health Care Professionals is a must read for trainees undertaking a fellowship in neuroanesthesia and for neuroanesthesiologists who are not themselves directing a neurologic monitoring service or who have limited experience with neurologic monitoring. This book would also be a useful adjunct for trainees in clinical

Monitoring the Nervous System for Anesthesiologists and ...

Monitoring the Nervous System for Anesthesiologists and Other Health Care Professionals is an impressive offering. It is well written, indexed, and illustrated. The chapters are all extensively referenced. It is also very good value at the price. I would recommend this book to all residents and especially to all neuroanesthesiologists. It will make a worthwhile addition to

Monitoring the Nervous System for Anesthesiologists and ...

Monitoring the Nervous System for Anesthesiologists and Other Health Care Professionals will be an important and helpful learning reference for anesthesia trainees as well as others training in surgical specialties that require neuro-monitoring.
