Pesticide Management | AEP - Environment and Parks
Alberta Environment and Parks conducts routine operation
inspections and responds to public and industry complaints
about improper pesticide management. Environmental
monitoring data collected by the Department is reviewed,
to provide early warning of potential pesticide problems,
which can be addressed through changes in management
practices.

Pesticide Protocols | SpringerLink

In Pesticide Protocols, expert researchers-who have each
perfected the techniques they write about-describe in step-
by-step detail robust methods for the detection of pesticide
compounds or their metabolites, techniques that are highly
useful in food, environmental, and biological monitoring,
and in studies of exposure via food, water, air, and the skin
or lungs. The methods range from gas and
