Discusses the need to prevent, detect, and respond to nuclear and radiological threats Identifies connections between technology needs and the underlying science Establishes research strategies that advance the ability to counter nuclear and radiological threats

Prevention, Detection and Response to Nuclear and ...  
Many current approaches employed to prevent a nuclear/radiological attack rely upon detection of materials. Another general category of threat reduction involves preventing acquisition or utilization of the materials. Therefore while the organizers and participants of this meeting recognize that the Nuclear/Radiological threats is extremely broad, we necessarily limited the scope of this NATO
