[TV Tuner: Digital, Internal & External - Best Buy Canada](#)

A TV tuner is a device that decodes your cable provider's signal so you can watch and record live broadcast TV on your computer. It essentially turns your computer into a DVR. It essentially turns your computer into a DVR. What is a TV Tuner? (with pictures) - wisegeek.com A TV tuner allows a person to receive signals on his or her television, and therefore receive different channels. It converts signals into pictures and sounds. The oldest type of tuner was simply the dial used to change channels and allow the television to pick up different analog signals broadcast.
