[The Intelligent Network Cloud Telecoms Private Members ...](#)

The Intelligent Network. Provides a high-level member organisation that brings together exclusively C-level executives from the carrier, service provider, cloud and content community. Delivers a platform for open discussion on strategic issues impacting on the carrier and service provider business and networks and an opportunity for executives to gain a shared understanding on common areas.

[The future of networking: A guide to the intelligent ...](#)  
App development fuels new chapter of intelligent networking. For years, the network was hardware-driven and rigid. Today, though, it's becoming more automated and intelligent through software code.

[What is an Intelligent Network \(IN\)? - Definition from ...](#)

An intelligent network (IN) is a network that provides specific technical capabilities or services outside the conventional network standard spectrum. This term is often linked with telecom networks, as recent innovation has expanded telecom's capabilities beyond its original primary function of facilitating phone calls.

[Intelligent Network - Wikipedia](#)

The Intelligent Network (IN) is the standard network architecture specified in the ITU-T Q.1200 series recommendations. It is intended for fixed as well as mobile telecom networks.

[What is Intelligent Network \(IN\)? - Definition from WhatIs.com](#)

Intelligent Network (IN) is a telephone network architecture originated by Bell Communications Research (Bellcore) in which the service logic for a call is located separately from the switching facilities, allowing services to be added or changed without having to redesign switching equipment.

[Intelligent Networks | ScienceDirect](#)

Coupled with intelligent network (IN) and limited personal services, the mobile services provided to the customers are limited by the intelligence embedded in the mobile service base stations. The role of the base stations in the earlier configurations of the 1970s and 1980s was to provide telephone service connectivity and handover functions necessary to maintain base station contact as the
